Betreff: Mujaheddin Day, security

Dear all,

Please be advised that during a movement through the inner city, which commenced at 0630 hrs this morning, it was established that all major road axis in Kabul are blocked or at least tightly controlled by security forces. It should be noted that access to the approach road to German House had to be negotiated with the commanders of the security forces deployed at either intersection.

Therefore all staff is advised to reduce movements within Kabul city boundaries for the bare essential only. Considered as essential movements are duty related travels from residences to project offices, agreed overland missions, airport pickups and medical and security related trips.

Have a nice Sunday
